

CENTIMETER HUNT

Use a paper clip to estimate the measurement of each picture. Then use a metric ruler to find the actual measurement. Write the actual measurement on the line under each picture.

A paper clip is 3 centimeters long.

Trout from A to B is _____ cm long.

The Black-eyed Susan is _____ cm tall.

A cardinal, from the top of its head to the tip of its tail, is _____ cm long.

The block is _____ cm long and _____ cm tall.

The Eiffel Tower is _____ cm tall.
